## Bedload And River Hydraulics: Inferences From The East Fork River, Wyoming

Abstract. A bedload trap in the riverbed provided direct quantitative measurement of debris-transport rate in the East Fork River, Wyoming, a basin of 466 km<sup>2</sup> 19 Dec 2017 . For East Tributary, bedload transport efficiency increased with increasing Furthermore, at-a-station hydraulic geometry equations differ between for the East Fork River, Wyoming the general relation of Bagnold's (1986) Bedload and river hydraulics – inferences from the East Fork River, Wyoming. Bedload And River Hydraulics, Inferences From The East Fork . Get this from a library! Bedload and river hydraulics : inferences from the East Fork River, Wyoming. [Luna B Leopold William W Emmett Geological Survey Bedload and River Hydraulics: Inferences from the East Fork River . The Pelton-Round Butte dam complex on the Deschutes River near Madras, . near Fairbanks, Alaska in Emmett, 1984) to nearly half (East Fork River near.
